

CANDIDATE FOR COUNCILLOR FOR SCRUTINY (Education Zone)

GRACE BURNETT

Ensuring your views on academic issues are being acted on and heard whilst building a sense of community

I am Grace Burnett and I am running for the position of Councillor for the Education Zone.

I know how important it is to have your voice heard and your suggestions acted on, which is why I would like to run for the position of Councillor of Scrutiny for the Education Zone. Through being a course rep and deputy faculty rep, I have worked alongside the President of Education and the union and developed leadership skills whilst being in these roles as well as building my confidence at the same time.

I would hold both the Education Zone and the Union accountable for the work they do. I will do this by attending all the Union Council meetings and other relevant meetings to ensure that I am dedicated in listening and raise any issues to the relevant people. I will also build strong relationships with the other Part Time Officers and Course Reps to ensure we are working collaboratively in our designated roles to ensure we give students the best experience possible.

This is why I feel I would be good at the Councillor of Scrutiny because I do genuinely care about students and ensuring they get the most of their time at university.
