

# CANDIDATE FOR REPRESENTATIVE FOR WOMEN IN SPORT

## JENNY BERTHELEMY

**Vote Jenny! Here to lift you up and tackle your issues!**

Having studied at the University of Hull for five years, as well as a member of Boat Club and Women's Rugby Union, I feel inspired to represent women in sport at our university. I want to grow the number of female-identifying students in sports teams, and see more representation of their achievements.

Why me?

I am friendly and open to ideas.

I am passionate about women in sport.

I have experience in two teams.

I will represent all women in all sports.

My ideas:

Media and Advertising

Create social media pages that show the achievements of female athletes at the University of Hull, and also communicate events to all students.

These pages will grow confidence and broadcast our successes to the university.

They can be used for campaigns on days like International Women's Day.

Supportive Atmosphere

Emphasise a supportive presence at games by students who are not competing at the same time.

This creates a strong female community that supports all teams by attending events.

This inspires female athletes to perform at their best, and creates a supportive atmosphere.

Smaller teams often have less support, so I wish to grow the popularity of such teams.

Competition

The expansion of female sports teams can be achieved through the growth of competitive opportunities, and training opportunities.

Support for events is even more vital this year, due to Covid-19.
